

# 1. Statelevel Stakeholder Mobilisation

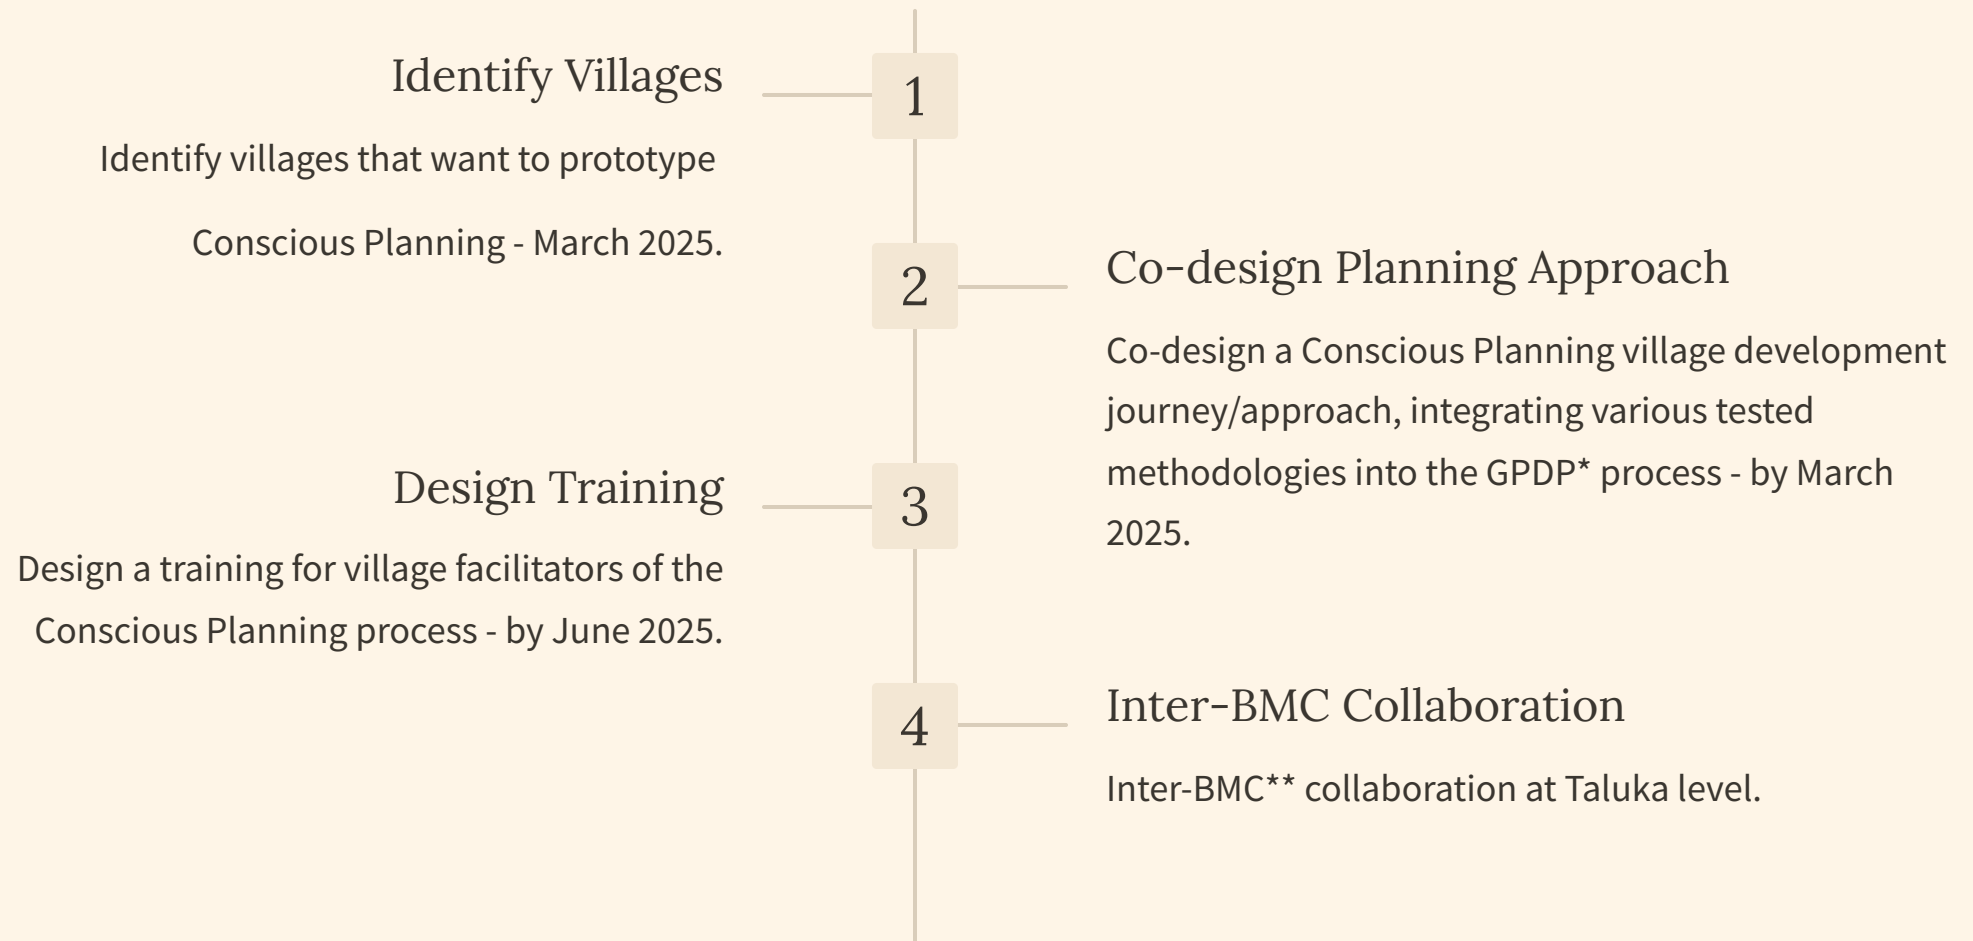

## Actions

1. Co-create a new Goa vision including Regenerative Tourism, and outline a conscious planning and progress narrative.
2. Continue the conscious planning community design process and engage more stakeholders, including more government in the process.
3. Support the Goa government to create an inter-departmental integrated government planning process to align department plans.

## Early March Update:

- Conscious planning follow-up event held at MoG on Jan 25 with workshop participants and vibrant visual harvest - thanks to clouds and arrows for the images used in this report!
- Regenerative Tourism scoping event held with tourism operators and Global Ecovillage Network on Feb 18, 2025.
- Spirit of Goa campaign initiated with students. Wider communications campaign for Vision for Goa to be developed by the comms group.
- Next Conscious Planning workshop scheduled for **May 2025**.
- Exploring first step as an interdepartmental planning initiative at the village level to demonstrate possibilities.

# Village / Place-Based Prototypes Group

## Early March Update:

- Data-driven village planning for resilience: project proposal in process with possible partners such as Goa College of Architecture, Biodiversity Board, Goa Remote Sensing Centre; other partners being explored.
- Siolim is already part of a mapping pilot.
- Other villages to be identified this month.
- Village journey and training development to follow next quarter.
- BMC outreach to follow next quarter.

# Data & Knowledge Group

## Actions

### Make Knowledge Network Visible

Make the knowledge network visible and accessible -

Feb 2025.

1

### Implementation & Integration

Integrate various data sources and make them accessible to stakeholders.

2

3

### Design Data & Knowledge Hub

Design a data & knowledge hub, including amche.in and onemapgoa.gov.in platforms - by June 2025.

## Early March Update:

- Visual database formats have been explored and the proposed network visualisation will be shortly shared for feedback.
- Data group initiated and collaborating to deepen understanding of how different platforms can work together.
- Working on Siolim water mapping as the 1st step prototype, meeting local priorities.
- National GIS summit collaboration on Feb 21-22 at Goa Remote Sensing Centre - future collaboration under discussion

# Comms & Education Group

1

## Design Materials

Design public information and education materials for youth, panchayats, citizens, business, etc. - by June 2025.

2

## Develop Strategy

Create comprehensive communications approach with key messages and channels.

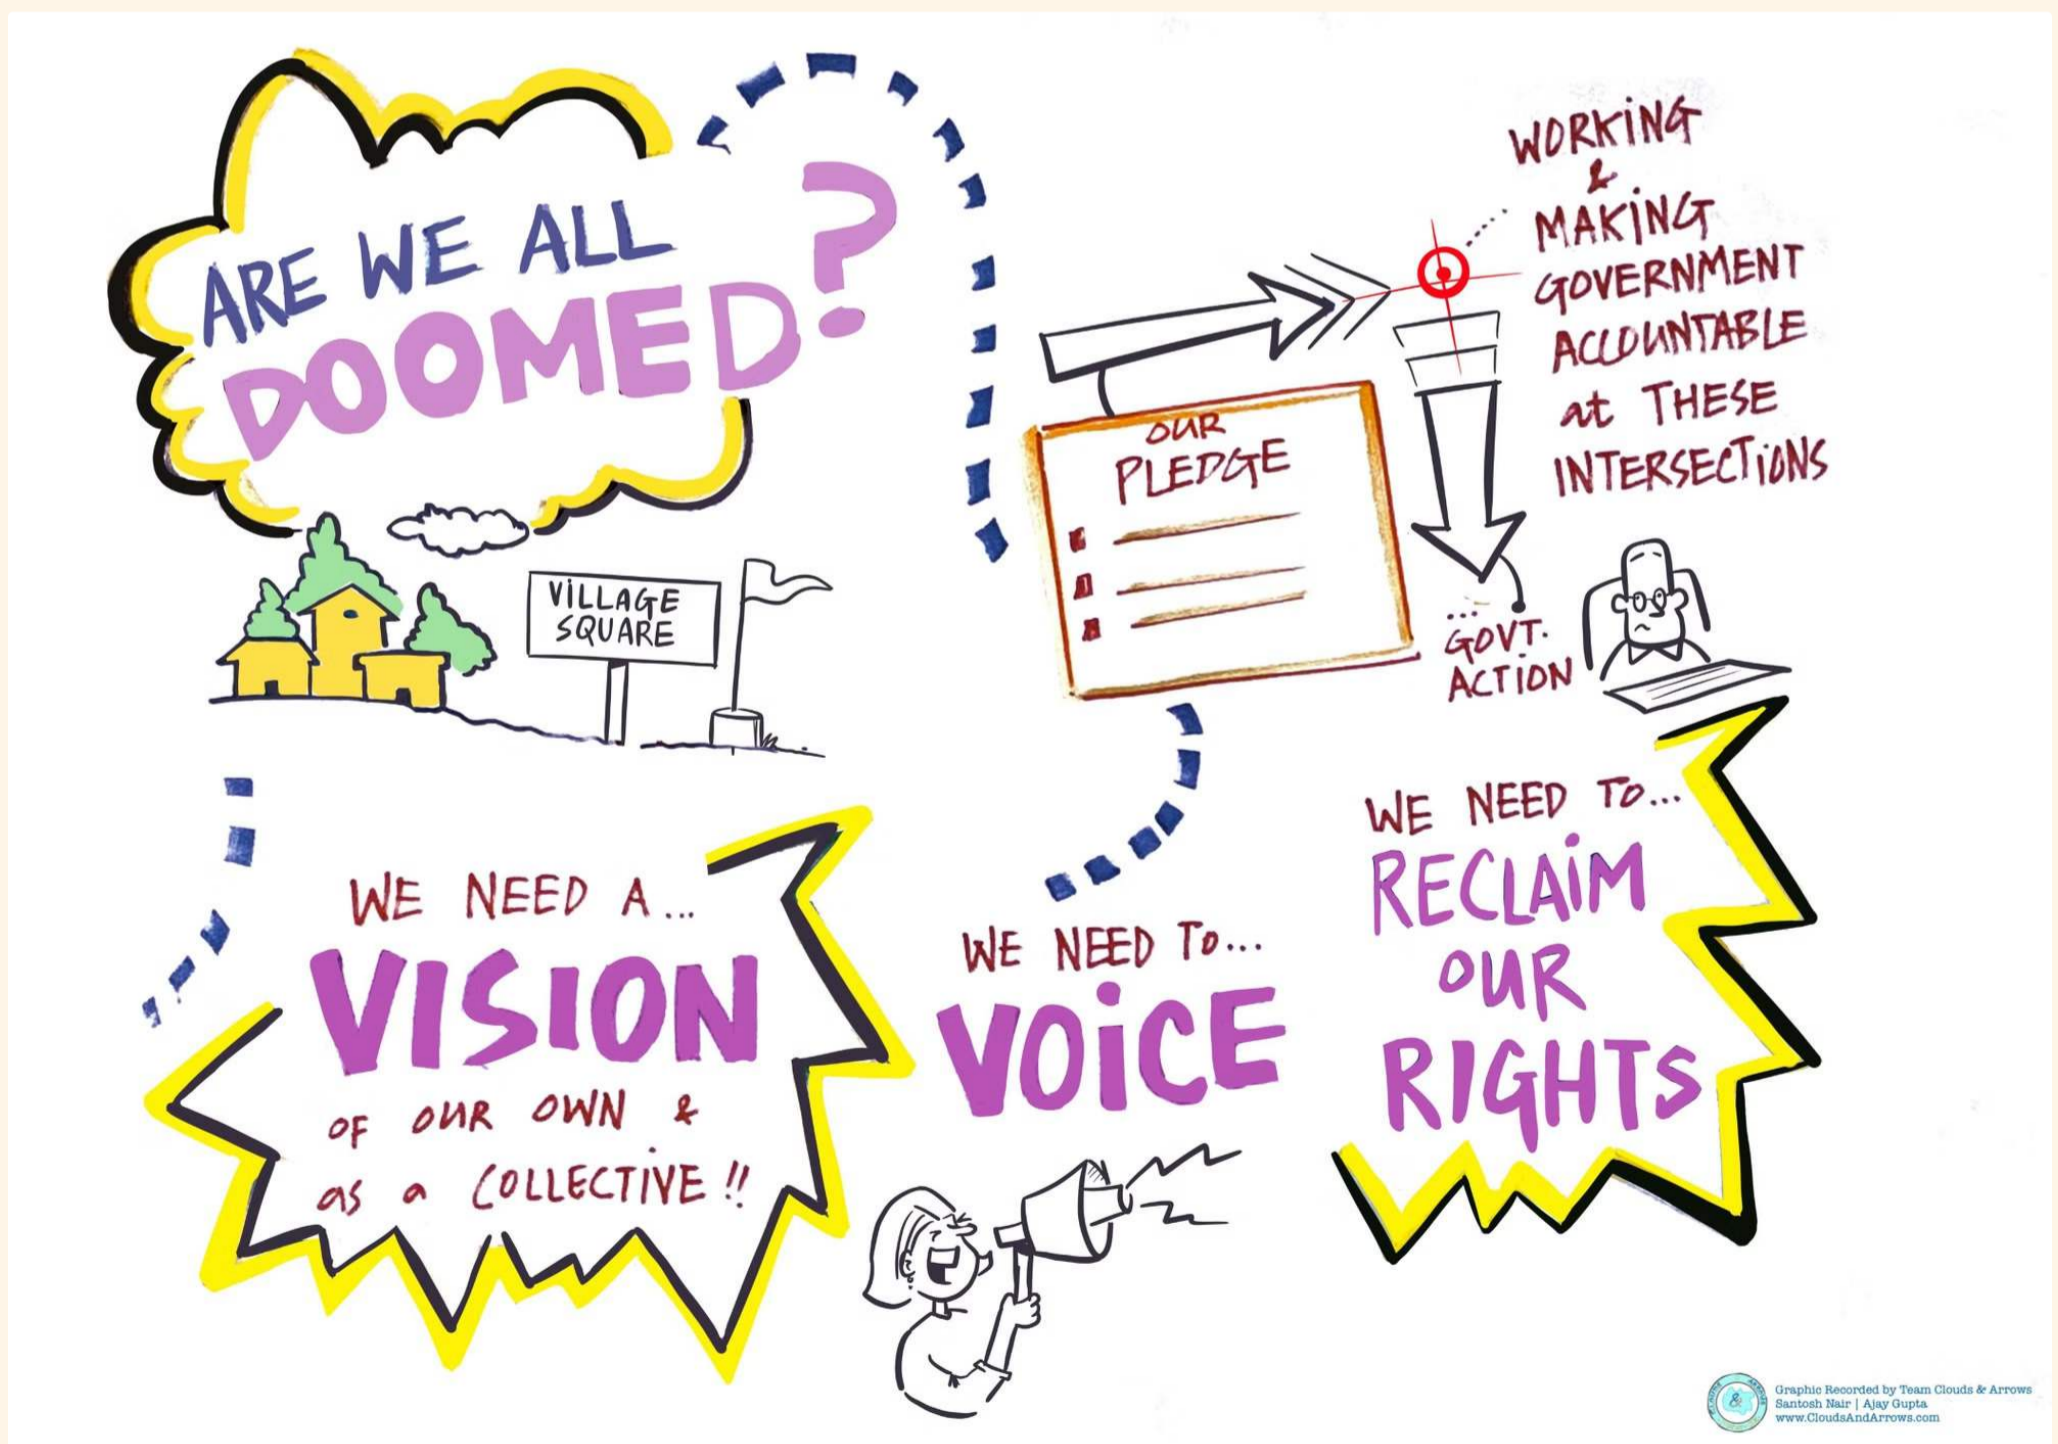

3

## Deploy Campaign

Deploy a Conscious Planning campaign and communications strategy.

### Early March Update:

- Comms group being formed in March.
- Seeking comms strategy support to advance this work.
- Mobilizing volunteer designers to support with materials. Also contributing to the Conscious Planning (data-driven decision-making) funded project proposal.

# Legal, Planning & Land Use Group

## Refine Framework

Refine the Conscious Planning framework and approach into a formal proposal - by March 2025.

## Mobilize Legal Expertise

Mobilize legal expertise to achieve advocacy changes and strategy - by March 2025.

## Design Grievance Mechanisms

Research & design options for a grievance body and compliance enforcement mechanisms with teeth (intergenerational equity).

## Design Land Stewardship Models

Research & design land stewardship models - by March 2025.

### Early March Update:

- Legal group has been formed.
- Research indicates that a grievance/enforcement body with real authority is a long-term goal. The short-term focus is on building accountability through transparent data, with tests being carried out.
- Land trust conversation (initiated in 2023) now being picked up and researched further.
- **Framework development group** now needed and in formation; Discussion ongoing with Goa College of Architecture for a funded research project in the urban and climate cell. Lead /coordinator needed to develop further - call for support!

# Cross-Sector Steering Group

The Cross-Sector Steering Group is to provide strategic guidance and support to all workstreams, ensuring alignment.

- **Support Process:** Guide all workstreams
- **Review Progress:** Assess achievements
- **Guide Strategy:** Ensure vision alignment
- **Coordinate:** Enable collaboration

**Early March Update:** Establishing an oversight body of advisors for this work. Please come forward with nominations!

# Ways to continue involvement

## **Conscious planning Circle member:**

- Provide diverse perspectives and inform a holistic picture drawing from your field of knowledge/experience, identify risks
- Identify people who can contribute and relevant other connections to schemes, projects etc.

## **Action Teams:**

- Responsible for leading that action team and executing tasks, reports back to the circle
  - Communications, Framework development, Village prototypes, State activations,

## **Steering Group:**

- Help keep the whole initiative on track, identify funding streams and strategic and tactical connections

**Get in touch at [actforgoa@gmail.com](mailto:actforgoa@gmail.com)**

**A HUGE THANK YOU** to all the people who have stepped forward and given their time for free to the follow up working groups , meetings and projects to help make Conscious planning a reality. Thanks to Cloudsandarrows for the beautiful graphics!
